INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANT" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 196 04 436 A1 discloses that the inductor has a coil on a carrier with thermal and/or electrical insulation covering it and a sensor for the plate temperature which is electrically insulated from the plate. Between the inductor and the plate is an airgap. The carrier has a support shoulder for the plate which projects through a hole in the insulation and the sensor is retained in the shoulder. The shoulder projects minimally over the surface of the insulation. The insulation is designed as a stable plate forming a compact unit when fastened to the carrier. The carrier has spacers on the side facing the plate.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANT" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicant. As per the Notice in

JC05 Rec'd PCT/PTO 16 JUN 2005

Attorney Docket No. 2002P01192WOUS

10/539542

1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

John T. Winburn
